

Colons can be used to align columns. | Tables | Are | Cool | | ————— |:—————:| ———: | | col 3 is | right-aligned | \|(1600
| | col 2 is | centered | \)12 | | zebra stripes | are neat | \$1 | There must be at least 3 dashes separating
outer pipes (|) are optional, and you don’t need to make the raw Markdown line up prettily. You can use them to make
Markdown. Markdown | Less | Pretty — | — | — *Still* | renders | **nicely** 1 | 2 | 3
