

I'm an inline-style link

I'm an inline-style link with title

I'm a reference-style link

I'm a relative reference to a repository file

You can use numbers for reference-style link definitions

Or leave it empty and use the

link text itself

.URLs and URLs in angle brackets will automatically get turned into links.<http://www.example.com> or

<http://www.example.com>

and sometimes[example.com](http://www.example.com) (but not on Github, for example).Some text to show that the reference links can follow later.
